Spending time with family and friends is what the Austin was designed for. The ground floor consists of the combined living, entertaining and resting areas featuring a large open plan living space, alfresco, theatre room and a double garage, whereas the first floor is your dedicated area for rest. This innovative design consists of all the sleek and polished features you need to have a clearly defined home with dedicated zones to suit your needs. Your Henley Completed Home will include:

- Grand Island Benchtops to Kitchen
- 20mm Caesarstone benchtops in Kitchen, ensuite and Bathroom
- 900mm freestanding upright cooker with built in oven
- 50-year structural guarantee
- 12-month maintenance check
- Front & rear landscaping, driveway, and fencing
- Remote control garage

Why a Completed Home? Henley completed homes either ready to move into now or within 3 – 6 months from when you purchase your new home. You get all the joy of buying an established home, which doesn't require all the design, fitting and fixture decisions, but being from our new properties portfolio, it's never been lived in – so everything is brand new – just for you! Henley Homes is the HIA Victorian and Australian Most Professional Major Builder of 2020. Having built over 50,000 homes since 1989, customers choose and trust Henley to build their new homes for their leading designs, innovation and transparency. Henley is renowned for their level of inclusions that are included as standard in their homes and the choice that customers get at no extra cost to personalise their homes to suit their style and budget. This extends to Henley's house and land packages which can be tailored to suit any house design, budget, lot size and orientation.

About the Estate: St Claire will catch your attention for all the right reasons. Located only 27 kilometres from the CBD, you can easily maintain a city lifestyle, or, if you prefer, find plenty to do locally. Exclusive in size, St Claire will be home to fewer than 200 residences, each uniquely chosen and paired to the land to ensure optimal house to land allocation.
