Offering peace and privacy, this idyllic property contains a captivating cottage linked to a secondary dwelling, both fully renovated to blend rustic charm with modern luxury, set against a breathtaking backdrop of Eltham Valley and the Nightcap ranges. The main cottage houses three elegant bedrooms, including a master with a spacious walk-in robe, ensuite with dual vanities and showers and deck access. Another luxurious bedroom offers a lavish ensuite flaunting terrazzo tiles and brass fixtures that can also function as a main family bathroom. The central kitchen and dining area boasts an oversized granite kitchen island with a breakfast bar, a cosy fireplace, and glass doors framing sweeping valley views. These doors lead to a vast verandah, linking the home with scenic surroundings and a separate structure with two large bedrooms, spacious lounge-media room, a full bathroom and a wet room that could function as a kitchen. This arrangement boosts the property's flexibility, allowing for guest accommodation or independent living. Outdoors, the property delights with various spaces for relaxation, including the deck's shaded alfresco area and a fire pit zone perfectly positioned to enjoy captivating views across the valley to the Nightcap Ranges beyond. Living here means embracing tranquility, luxury, and natural beauty. Mornings start with sights of hot air balloons over the valley, while evenings are for watching sunsets. Despite its secluded feel, the property benefits from proximity to Alstonville and the Eltham Hotel, providing a serene retreat with easy access to amenities and attractions.
