A Quiet street and a good location, very short drive to the beautiful Warnbro beach.

This property has a very nice tenant that has lived there for years and would like to stay on. This brick and tile home is situated on a large block. There is a nice entrance way to a large formal lounge area that is carpeted and has drapes for the windows. Then you have a meals area and a good size kitchen with electric cooking. All this area has vinyl flooring and the two bedrooms are both carpeted and have curtains and blinds. The laundry, toilet and bathroom are nicely tiled and it is serviced with an instant electric hot water system. Out the back of the house is a colorbond Patio and paving. There is also a large 6m x 4m workshop. This is one part of Warnbro that is a great place to buy an investment property or live in. It is well worth a viewing.
