Type: House

Ross Matthews

\$590,000

This four bedroom family home has just had an extensive renovation completed to the very highest standard. The beautifully appointed home is both practical and functional and oozes class right from your first step inside. On the ground floor you will find a kitchen with timeless timber cabinetry and electric cooking that is open to the dining area. The large family living room is then openly accessed from the dining area. The three bedrooms, all with built in robes, are accessed from a central hallway as is the renovated family bathroom with a shower and separate full size bath. Venture upstairs to the large parents retreat with bedroom and a brand new on trend walk through robe to the beautiful feature ensuite with a large double shower. You will admire the fantastic views across town to the Grampians from this upper level. The whole house has had new floor coverings and window furnishings and has been freshly painted throughout. There is zoned, ducted reverse cycle heating and cooling to keep the temperature just right all year round. Outside, on the allotment of approximately 800m² there is a drive through carport to the garage/workshop with concrete floor and power connected. The gardens are easy to care for and the boundary fencing is in good condition. This fantastic, modern family home is located in the very popular and peaceful North end of town and has easy access to all that Stawell has to offer.
