Picture this. You embark on your morning walk. The birds are chirping, and the sun is shining as you take the short stroll to the Beachmere waterfront and Silver Spoon for a coffee. You take a moment to reflect... what a stunningly beautiful place to call home! Nestled in the gorgeous Beachmere community, 160 Moreton Terrace is a well-constructed low-set 3-bedroom brick home ready to be lived in immediately. The need to knows... + Fully fenced flat 600m2 block that offers both a front and separate backyard. + Large 6m x 6m shed. + Two covered carports and ample space to park the boat and caravan. + Onsite bore.+ As you step inside, you are greeted with a spacious open plan living / dining area with high vaulted ceilings and split system air conditioning unit. + 3 bedrooms with built in wardrobes. + Renovated bathroom with new shower screens and basin. + Internal Laundry. + Well-designed kitchen with new rangehood. + Large covered patio area. What the pictures don't show... + The enormous potential to add value to this well constructed home. + Only one neighbour, as the block sits beside council owned land. + Moments from the Beachmere Boat Ramp, and 2 minute drive to the shops and local cafés. + Surrounded by beautiful lush green nature, this could be your home amongst the gum trees. What we love about this property... Level flat blocks of land with single story residences offer significant opportunity to both owner occupiers and investors. In this case the ability to further add value by enhancing the garden and outdoor facilities make this a property well worth viewing. Beachmere is a suburb which has experienced significant growth recently and offers a lifestyle that is both family friendly and community focused.
