\$370,000-

A Three Bedroom home with some bonus under house space. There a sizable garage together with a full time workshop space and extra lock up storage. Inside the cottage shows off some great big "showcase" windows that let in plenty of natural light. The Natural polished timber floors add to the decor and your kitchen is nice and open. Up the hallway there is a tiled bathroom (Shw & bath plus separate toilet). A back sun deck looks over the back yard and underneath is a separate laundry. There's split system air condition as well as BIW's to all bedrooms. It's a honest home and would paint and renovate well to make an ideal first home or investment. Listed at \$370,000-. more details or inspection phone 65432788 or visit the web site www.ehpfirst.com.au
