\$850 pw

This bright and airy unfurnished air-conditioned apartment has been beautifully refurbished with polished timber floors and is located on the 16th floor. Having been lovingly cared for by the owner over the years, they are now allowing tenants the opportunity to enjoy their home. Wide full-length glass windows lead to the oversized balcony and view beyond. One of the best aspects of this floorplan is the abundance of light availed by large windows which line the living area, kitchen and in both bedrooms. The spacious and stylish kitchen includes high quality appliances, crisp long granite benchtop, gas cooking and has the huge benefit of an opening window to help with those apartment-living cooking challenges! The master bedroom features a large walk-through wardrobe to the ensuite with double sinks. While the second bedroom includes a spacious, deep built in wardrobe with high mirrored doors a super study nook – perfect for Work-From-Home days and is positioned close by a 2nd bathroom. The garaging is accessed by security fob only – through remote controlled garage gates. Living in the Aurora Tower offers truly one of the best locations in town so close to the heart of the city, financial districts and universities and inclusions of arguably the most outstanding facilities in town. The huge fully equipped gymnasium, complete with multiple machines, weights and TVs (to keep your mind off the work), a sparkling heated 30m swimming pool, inside sauna, a spectacular elevated outdoor spa and large BBQ and entertaining area are available for your use as a resident of this apartment. To top this off there is a function room and a magnificent theatre room perfect for intimate gatherings to watch that special show. Fresh to market with photos coming soon.
