\$549,000

Proudly presented to the market for the first time. If you are into this era you will immediately appreciate this built to last forever home. Corner wrapped windows hard wood and veneer details throughout and classic door handles will trigger that love for the 60-70's era. So extremely well looked after with generous room, two bathrooms, reverse cycle heating and cooling, large living room plus sunroom and established tress this light orange brick home really has it all. In addition to all the features the location is literally a stones throw from the main street. There is also great access through laneway and a perfect set up with a carport to store boat, caravan etc. 166 White Road, is a classic beauty, ready to be moved into and to continue being loved forever by new home owners.
