\$545,000 - \$595,000

This well-maintained home is ideal for the investor or young family looking for space to grow. The home is integrated with the land such that the master bedroom and second living space is on a split-level with the remaining rear area of the home. This enables a spectacular high ceiling through the kitchen. The kitchen has a walk-in pantry and stone island countertops along with stainless steel appliances and overlooks the dining and main living room. There is an alfresco dining area that overlooks the back yard and this may be planted out to your taste if you are looking to occupy the home. There are four bedrooms in all, master with ensuite and three further bedrooms with their own well-appointed bathroom toward the back of the home. The home is heated with gas central heating and there is a split system air conditioner in the main living space on the lower level. Be sure to make a time to inspect as we know confidence in the market is growing.
