There are some properties that epitomise Summer coastal living and this classic beach house is one of them, complete with a beautiful beach at the end of the street. Sunnymead beach is a stunning hidden beach that is a local favorite for its beauty and gentle surf and is only a short walk from the property. The 3 bedroom residence has great appeal with its timeless painted timber interior and classic weatherboard exterior. It is what many imagine a family beach house should look like - welcoming and user friendly. Open plan living with sundeck access, gorgeous decor touches and smart finishes all add to the appeal of the property. There are also the practical elements with a 7.5KW solar system and split system air-conditioning, well appointed kitchen and hot and cold outdoor shower for when you return from the beach. Set on a level, user friendly 635sqm (app) allotment and bordering a reserve on one side means that you will be heading to the beach much more than you will be gardening. Priced right on the median for Aireys Inlet, this property is ready to provide the laid back coastal lifestyle that all of us want and most of us need.
