This landmark Foster property provides a once in a lifetime opportunity in the heart of town. A real fairy tale setting from the peaceful gardens with various areas to explore to the two story main building with exterior bricks and internal rendered walls, mud brick studio & garden shed and internally paved cottage courtyard. All backing onto the Pearl Park with direct views of the bridge from inside the property and located right in the centre of town. The home comprises 3 good sized bedrooms with built in robes one upstairs and two downstairs. A central lounge / dining area adjoins the kitchen with timber benchtops & cupboards and in need of new oven and cook top. Downstairs laundry with benches and direct access to the rear yard and a central bathroom with vanity, toilet and shower. Upstairs is a large 2nd lounge area with fireplace, bookshelves and reading nook and a cathedral ceiling. This room could easily make a large private master suite. A 2nd bathroom with shower vanity and toilet is also located upstairs. An external studio / work from home space which is connected under roof line could also be used as a 4th bedroom. A garden shed / storage space, bricked paved central courtyard and large front and rear yard and a front veranda and mud room / lean too (in need of some TLC) complete with the external features of the home. Neighbouring Pearl Park to the rear and one side provides the feeling of additional space and a peaceful outlook. Don't miss this opportunity to secure such a unique local landmark property. Inspections strictly by appointment.
