Great properties have three things in common - a fantastic position, a sunny northern aspect and beautiful presentation. This classic family-sized home features all of these and so much more. From the moment you enter you'll find an appreciation for the size, space and quality of build. The formal entry flows to an impressively grand staircase that creates a light and open space connecting both floors at the centre of the home. The main floor is traditional in layout with generous formal living and dining, a gourmet kitchen overlooking the back yard, open plan meals area and a family room that connects to the covered outdoor entertaining area. The second floor is all about the family with a large lounging space overlooking the adjacent council reserve as well as three generous bedrooms plus an incredible master suite which features a walk in robe, large ensuite and private Juliet balcony. The current owners have taken advantage of the sun filled back yard to produce a variety of veggies from their garden. The fully fenced back yard opens to the grassy council reserve that is ideal for back yard cricket, kicking the ball around or watching the local wildlife. Additional features include:- Full bathroom and shower on ground floor- Double garage with automatic doors plus roller door access to back yard.- Workshop/office space with garage access- Level block with room for caravan- Natural gas and solar system
