One of Tobruk Crescent's original residences now creates a window for re-inventing, re-building and re-developing its landmark corner block, STCA. This home's traditional look, classic lines and north-facing frontage illustrate a readiness for defining the next chapter of a location that has only become more highly sought after since this home was built.

Delivering some 508m² with the flexibility for driveway access on the northern or the western aspect, the allotment's potential is outstanding. Coveted proximity to Williamstown High School, the swimming beach, Bay Trail West and Jawbone Marine Sanctuary ensures a rewarding future will accompany the contemporary design that will grace this significant site, currently occupied by a two bedroom residence featuring bright spaces, a carport and established gardens. While the current image is all about the past, there's wonderful potential to create a whole new world here!
