\$1,550,000 - \$1,650,000

Brilliantly positioned one block from the beach, with views towards the water, walking distance from Pier Street, the station and Altona Primary School, all the advantages that make Altona such a great bayside address accompany this distinctive three bedroom residence. A low-maintenance forecourt, the street presence and the width of the block instantly capture the attention while the balcony's stacked stone feature wall adds the sense of identity. Inside, polished floors complement generous proportions for living and dining that open to designer decking and the rear garden's exceptional depth while a kitchen featuring stone benches, a central island and striking cabinetry flows to a zone that can be a casual meals area by day and a bar by night with its own access to the deck and the great garden dimensions. A downstairs study and bathroom, three upstairs bedrooms sharing a fully-tiled family bathroom and front and rear balconies add to the character of a bayside property where the sight and sound of the beach brings pleasure every day. Solar panels, secure two car garaging and storage enhance the chance to make 'bayside' mean what it says!
