\$780,000

The current owner's life plans have changed and needs to downsize. This is a rare opportunity to secure a small acreage in Strathdickie. Are you looking to relocate but don't want acres and acres to look after? 18/137 Telford Road is set on a 9529sqm block of land tucked at the base of a lush green mountain located at the end of a cul de sac. This property gives you that rural feel without all the hard work of a large acreage property whilst still enjoying the peace and quiet. As you drive up the fully concreted driveway you will find the 385sqm home looking over your tranquil retreat complete with 125,000 litres of rainwater and an assortment of fruit trees. There is plenty of parking with 3 lock up bays, all with remote roller doors with extra storage at the back for all your gear. As you head inside through the large lockable breeze way with loads more storage you access the modern and fresh home with 2 bedrooms, 2 bathrooms, separate study and is fully air conditioned. The spacious kitchen will have you whipping up a storm for all your friends. The main bedroom doesn't leave you going with out with a large walk-in robe and ensuite with double vanities. Entertain for hours with your own bungalow at the rear of the property or under the front or rear verandahs. Keep those fur babies safe with a fenced enclosure that leads into the enormous laundry area. There is nothing left to do at this property but move in and start enjoying the serenity. * Image out lines are indicative only
