Offers over \$475,000

Located in an elevated position in the immensely popular suburb of Mowbray, finds this beautifully updated three bedroom home with all the mod cons including reverse cycle air conditioning, spa bath, roof top solar with a capacity of 3.5kw, updated kitchen and floor coverings. The secret to this home though can not be seen from the street though. Upon entering the lounge area you will be greeted by one of the best views in Launceston from the massive 7x11 metre deck that sits well above the ground and shows off the UTAS Stadium, Glebe farm, the Gorge, Tamar River, University of Tasmania and Launceston City. Under the property is the perfect workshop for your weekend pursuits and because the property is located at the end of a cul-de-sac virtually no drive through traffic is evident. Currently tenanted at \$460 per week until the 7th September 2024.
