\$305,000

Most likely built in the 1930's or 1940's this big old Queenslander has had a lovely facelift with fresh paint inside and out. Sitting on the classic quarter-acre block (1012 sqm), it is only a block and a half from the CBD. This home will be perfect for large families as it is an easy walk to schools and sporting fields from here. The house consists of 4 bedrooms with built-in robes and air conditioning. The main bedroom even has a walk-in robe. The rooms are all very large with soaring ceiling heights and classical features typical of these beautiful old Queenslanders. There are two newly renovated bathrooms the second is adjacent to one of the main bedrooms and would be an easy conversion to an ensuite. The kitchen is huge and has heaps of bench space and cupboards along with the dishwasher. Apart from the large entry foyer, there is a large enclosed front verandah that would make a great office or even a 5th bedroom. New floor coverings right through. With Johnstone River hardwood bearers sitting high up on concrete stumps there is plenty of room underneath for car parking, workshop, and storage. The block of land is level and pretty much a blank canvas. There is room for a soccer field, veggie beds, and fruit trees. The choice is yours. Contact Michael Skuse
