Attention First Home Buyers looking to off set the mortgage, not just for the Astute Investor. When you can live in one and rent out the other makes getting your own home more achievable. The main house has 3 bedrooms , main bedroom with built-in, A/C in living room, internal laundry, separate WC, Main bathroom has a bath tub and shower great for young family. Water Tank The one bedroom granny flat also has built-in, both are separately metered. This is a great opportunity for a self managed Superfund. Contact Selling Agent Scott Gregory
