Rod Devlin

Country quiet on a couple of acres!

With the benefit of sealed road access and an easy drive into Glenrowan, Wangaratta or Benalla this rustic country cottage on two acres might just be the little piece of paradise you've been searching for! The cottage provides three or four bedrooms, lounge with open fire place, a kitchen/meals area, internal bathroom and a concreted outdoor entertaining area plus a lockable colorbond garden shed. With new carpets and paint work internally, there's an opportunity to continue improvements and add further value. Outside there's two paddocks with post and rail fencing plus the house yard and various shedding/animal enclosures. There's also a single carport under the roof line. This is a great opportunity for a young tradie to start out with their own property, an ideal place to escape the city as a weekender or perfect for those who need space for a pony!
