\$279,000

Now with fresh paint and some new floor coverings it is ready to rent or move in...This massive old Queenslander sits on a cracking 1047 sqm level block close to the local store and public school and across the road from the bus stop. With four generous bedrooms, three of which have built-ins and air conditioning this house would be a desirable rental property. It has two bathrooms the second being downstairs which is very convenient when you have been outside working. The gardens are a blank canvas but clean, neat, and easy to care for. The house is elevated, with internal stairs, which provide for undercover parking and heaps of lockable storage along with a downstairs office or gamers room. The elevation allows for a massive outdoor patio under the roof where you can watch the world go by. It also has a high clearance double carport at the rear of the home with under-cover internal access. With solid timber floors, high ceilings, big rooms, and a large working kitchen there is huge potential here. The rental market is tighter than it has ever been and we would think tenants will be crawling over each other to rent this home. That said it would make the perfect first home or owner occupier.
