Spacious living with expansive views across Western Port Bay and lush garden surrounds, means every room has a view. Commanding attention with its striking elevation, this gracious entertainer, just a short stroll from the beach, embodies the charm and serenity of this highly sought-after seaside location. Dynamically proportioned over two impressive levels, a double height entry foyer leads to a spacious informal lounge with direct access to a balcony with views to Phillip Island. The modern kitchen and vast dining area open seamlessly to a large north facing alfresco entertaining area overlooking the tranquil rear garden. Upstairs, the master suite offers spectacular views of Phillip Island and the Nobbies. A second lounge and entertaining area provides further views of Western Port Bay and captures the northerly aspect for winter warmth. The large home office with custom cabinetry combined with wonderful views of the garden makes working from home a dream come true. The property is further enhanced downstairs by generous family or guest accommodation with three bedrooms, one with ensuite and a family bathroom. Additional features include a wine cellar, automated clerestory windows, security, irrigation and ducted vacuum systems. In a privileged position near the pristine waters of South Beach, Somers General Store and the yacht club, this expansive property presents an unmissable opportunity to settle into a much loved and tightly held enclave.
