STAND OUT FAMILY HOME ON NORTH SIDE!!

From the moment you arrive, this property will capture your attention... with its striking red brick facade and vibrant interior colour scheme, you will immediately feel at home here.

All your needs are covered throughout the home... from the split system airconditioning to the timber blinds for privacy, massive tiled open plan living and dining spaces and the central kitchen which allows for the whole family to enjoy time together.

The 4 bedrooms are all generously sized with built-in wardrobes and ceiling fans. The main bedroom has a bright and airy ensuite.

Cooking for a crowd is made easy in the kitchen which features large fridge space, electric cooktop and separate oven as well as loads of cupboard and bench space with a breakfast bar as well.

The bathroom features a shower, separate bathtub and extra built-in storage atop the vanity with the toilet being separate off the laundry.

There is a spacious under-roof entertaining area off the living area which looks out to the massive fully fenced yard and takes advantage of the afternoon shade.

You also have a garden shed at the rear of the home for storage and a double lock-up garage.

This property needs to be inspected to be appreciated.
