The thing that strikes you about this home is that it has everything you want on a beautiful property in the "El Caballo" estate. The near 6 acre lot has lovely views over the surrounding valley, especially from the balcony on the second storey parents retreat. The home is both large and cosy very neat, well laid out, great kitchen to cook up a storm plus a breakfast bar and the lounge dining area flows nicely through French doors to the deck and balcony area for that indoor/outdoor mix that is so popular today. The verandah that surrounds the house is accessible from all the other rooms. The delightful Parents retreat upstairs is just perfect for a bit of peace and quiet, especially when sitting on your own balcony maybe with a cuppa for breakfast or something stronger to watch the setting sun. Then there is a large 12M X 6M shed to store your toys or tinker away plus a full length patio alongside for more storage or play area. The shed is powered, lined and insulated plus shower and toilet and even a slow combustion heater. There is also a 6M X 2.4M "donga" used as an office. Throw in solar power, a beautiful mix of trees, garden vegetable areas, scheme mains water, full fencing and less than an hour to the city and it's easy to see why I think this is just magnificent. You know the market is hot at the moment so call Lui now on 0408090892 for your private viewing. Don't forget to take the 3D virtual tour of the house.
