Don't buy a unit, this 2 bedroom cottage is much better. Set just out of the main street the property comes with all the furniture and items you see in the photos and the video ready for you to walk in and collapse into the lounge chair. The property has 2 double bedrooms, fancy gas stove, split system A/C , free standing wood heater and a update electrical switch board. Outside there is a rain water tank, old single garage all on a well fences block with a shared drive way.
