Welcome to Norfolk House – a beach-house like no other. From the moment you approach Norfolk House's picketed front fence and spy the incredible custom-built front door, presented in a striking Zahri Pink, you realise that you're about to experience a home where style plays a front-and-centre role. The owners of the property, over an incredible one-year top-to-bottom renovation project, have struck a perfect balance between premium contemporary beach styling and maintaining the basic, yet sacred elements that make a property feel like a true beach-house. From towering VJ clad walls to a cosy bunk-room, through to an avant-garde kitchen and entertaining area that opens directly onto the ocean-facing deck, that provides a sublime view of the rear pool and garden, Norfolk House stands tall as the perfect beach-house. Located just a few rooftops from the beach in one of Shelly Beach's most sought after beachside streets, Norfolk House represents the opportunity to acquire a luxurious beachside residence that will likely stay within the family for generations to come. If you've trying to find that "forever" beach-house for you and your family, then you have to come and explore Norfolk House; the most perfect beachside home you will find.
