Come on in and experience what this low set brick home has to offer. With its three bedrooms and open plan living and dining with air con off the kitchen there is room for all the family. All one level in quiet position at the edge of town this house on a 1068m² block has established trees and gardens with fruit trees and a veggie patch. Perfect for providing for the dinner table. The original kitchen is a classic with walk in pantry and gas stove but a few contemporary changes would really freshen it up in here. All three bedrooms are comfortable and have carpet and are serviced by a retro bathroom with shower over a bath and separate toilet. To one side of this home there is the added bonus of converted garage to a rumpus room, giving flexibility for extra living space, hobbies or even an office. Out the back, utilizing the covered patio will be a breeze for the Sunday bbq with friends and family. Beyond here is the large 6x9m shed with roller doors, a boat port, a water tank and 2x garden sheds. Great for storage and for pottering in the garden. This great property can be found centrally located to the major centers of Maryborough and Hervey Bay in the growing village of Howard. A property like this is just waiting for you to come and see it so give our office a call and you can be the person to seize this opportunity to purchase in this fantastic area.
