One of Wyrallah's first homesteads this charming old cottage is situated on almost half an acre (1880m²) on the high side of the Richmond River bank approximately 11 km from Lismore on a sealed road. The home is flood free and offers a lovely, secluded view with pathways down to the river. Entering from a paved courtyard, the home has a wide veranda along three sides of the home and an undercover timber deck perfect for entertaining or to appreciate the beauty of nature in the garden wilderness, birdlife and the occasional koala. Features include timber floors, ornate cornices, views from virtually every window, two bathrooms, air conditioning, wood heater and compact kitchen with plenty of cupboards. The very large living/rumpus room could easily be used as an additional bedroom or guest accommodation. The property boasts town water plus a pump to access water from the river. There is also a hardwired fountain pump and a new septic system. A very large shed/garage allows for multiple car accommodation plus room for a workshop or studio. The home is also within close proximity to the local primary school. Enjoy being a member of the small active Wyrallah community, taking advantage of their social activities such as pizza nights, community classes and a swap library.
