Discreet from the street, fabulous behind its façade, this home's indoor/outdoor spaces offer privacy and personality in a coveted position just one block back from the Esplanade, parkland and the water. Polished floorboards and a sky-lit ceiling capture superb living and dining areas that wrap around a substantial, immaculately original open-plan kitchen. Bi-fold doors and café windows create a seamless link between the living areas, the kitchen and an entertaining orientated backdrop featuring expansive decking, its own sky-lit ceiling, bistro heaters and a comprehensive integrated barbeque bench/alfresco kitchen. Beyond, an elegantly landscaped rear garden delivers low-maintenance dimensions, a romantic retreat and water feature. Three upstairs bedrooms arranged around a spectacular, full size semi ensuite spa bathroom include a main bedroom where a walk-in robe and full width balcony make the luxury even more memorable while ducted heating and cooling on the first floor and split system downstairs deliver total comfort. Secure double garage. Superb.
