\$233,000

This three-bedroom high set home sits on an 809 sqm block fully fenced and level block. It is currently tenanted at \$350 per week with a lease that expires late in October. A discussion with the tenant has revealed that at this stage she would be happy to sign for a further twelve months if it was on offer. The house was originally built in the 1960s with hardwood frames and hardwood timber cladding elevated on steel foundations. There is plenty of height which allows for storage of the tinny and a couple of cars whilst still leaving plenty of room for a workshop. Also downstairs is another three lockable rooms. Upstairs the three bedrooms are all air-conditioned with built-in robes and are all quite generous in size. The living room is L-shaped and flows into the separate and large kitchen. There is also a good-sized front landing which is covered and the perfect place for a sip and debrief at the end of the day. This property is an easy walk to the high school and the town center. There is a school bus at the end of the street to take the younger children to primary school. Well priced and a solid investment or future family home. Contact Michael Skuse
