\$280,000

This lovely home is much bigger than it looks from the street. It sits on a massive 1176 sqm block with a lovely rural outlook from the back. The home has been renovated throughout with around \$100 000 having been spent on it. Think brand new kitchen with new appliances, new paint inside and out, new wall cladding, a full rewire, new air conditioners, and new floor coverings. There are 3 large bedrooms in the main house, they are all very generous in size with built-ins and new air conditioners in two. Down a couple of stairs and you have another large living room which flows through to the double garage with internal access and a remote door. This space is fully lined and the concrete is painted and is currently used as an extra rumpus room. The gardens are fully established with the addition of an extra shed which is the perfect potting shed or would even make a great garden studio. The school bus goes right past the front door and the famous Mary's pasta shop is right next door. It serves as the Post Office and the community hub. Truly a peaceful place to live on a block big enough to grow a few veggies, have some chickens, and plenty of fruit trees. Contact Michael Skuse
