\$125,000

The property market is still hot and there are very limited opportunities to purchase land in Cummins suitable for development. This property fits that bill, or alternatively provides an opportunity to be a renovator's delight. Located on a quiet street in the rural hub of Cummins, this property is a short walk from the Cummins Showgrounds and Cummins Area School. Power and water are connected, the land is flat, the property runs north, south and overall is a good size for residential purposes. This property has plenty of potential and won't last long on the market.
