Living in this desirable home would always feel like you were on holidays. The very large bedroom opens out onto a balcony where one can soak in the views of the channel, Satellite Island and beyond. The living area and kitchen are downstairs and also open out onto a wrap around deck. The house is heated by a heat pump and electrical wall heating. As the village of Alonnah is just down the hill, all amenities are within walking distance or just a minute by car, including the beach, the pontoon, cafe and shop, pub and post office. This property has just been painted throughout and the kitchen refurbished.
