This rural zoned block has a frontage to the Warracknabeal Rainbow Rd approx 20km from Warracknabeal. The property is unserviced with no power or water but there is a power line running through the property. The block has previously been used for horses and is an old Baptists Church site and there are some established trees. The nearest neighbouring house is some distance away. There is also a round yard for training horses. The block is surrounded by rural type fencing which needs to be restrained.
