This classic cottage has been renovated to have all the modern conveniences, including a functional kitchen, luxury bathroom with dual shower heads, open-plan living space, and a built-in robe in the master bedroom. The upgrade even takes advantage of the home's lower level, with a downstairs room that is ideal for storage or use as a study space. Step outside from the upper floor to an entertainer's delight, which includes a covered outdoor deck complete with a built-in kitchen and room for a second fridge.
