Here it is, the perfect starter to gain that essential foothold into the Blackheath market. At 976M2 this level block has a lot to offer, its not so large as to be a maintenance burden but big enough to feel spacious. It is close to town too and would be the perfect spot to build a first home or holiday cabin or maybe you could bypass all those pesky building 'variations' and truck in one of those nifty prefabricated homes such as Pre-Built or Pre-Fabulous! All the services are in the street so you are ready to go !

- 976M2 Block
- Close to town
- Close to public transport
- A great first start in the market
