Directly opposite Moonee Ponds Creek Trail, this three bedroom, two bathroom townhouse presents everything you need. With exclusive street frontage on a boutique block, the property embodies a tri-level design complemented by reverse living. Engineered floors flow throughout, as the open family/meals domain leads to an undercover balcony, perfect for relaxed entertaining. Meanwhile, the stone-bench kitchen includes stainless-steel Bosch appliances, soft-close cabinetry, double sink and mirrored splashback. There is also a concealed European laundry. Carpeted bedrooms with robes are split between floors and accompany the stylish tiled bathroom. Additionally, the master features a private ensuite and walk-in-robe. Further inclusions comprise multiple split system units, powder room (third toilet), alarm, rainwater tank, plus remote-controlled garage with internal access and driveway off-street-parking.
