Doubling as the perfect investment property that is close to all of your everyday amenities and enjoys direct access to freeway south, this neat and tidy one-bedroom one-bathroom apartment is a real gem of a find. Nestled on the ground floor of the complex, it truly does lend itself to those from all walks of life. A securely-gated entry courtyard is the perfect private entertaining space and is partially covered for protection from the outdoor elements. It also allows you to step directly inside, into an open-plan living, dining and kitchen area that has its own front door, as well. There is also a breakfast bar next to the kitchen, where decent under-bench storage is complemented by a Chef electric-upright cooker. The bedroom is large in size and leads into a practical ensuite bathroom that is brilliant in its simplicity and plays host to a shower, toilet and powder vanity. A communal laundry sits on-site, whilst there are also visitor-parking bays for your friends and family to utilise. Add your own personal modern touches throughout if you do indeed decide to stay put and call this charming pad your own, taking full advantage of an ultra-convenient and central location in the process - within minutes of schools, shopping, lush local parklands, the coast, the city and even the buzzing Main Street food and coffee strip. Low-maintenance "lock-up-and-leave" living has never been more delightful! Other features include, but are not limited to:

- Secure gated complex
- Tiled flooring
- Skirting boards
- Security-door entrance
- Security window screens
- Single car bay
