A Little TLC Will Go A Long Way

Located in a well maintained complex of 3, at the top of a quiet cul-de-sac, this tidy 3 bedroom property offers a carefully considered floorplan that is ideal for first home buyers, a young family or property investors.

From the moment you walk through the front door you will be greeted with plenty of space and brightly coloured walls. All bedrooms feature built-in robes with a ceiling fan in the main. The open plan living area which flows through to the rear courtyard also includes a ceiling fan and split system air conditioner.

The attached single garage offers both a remote controlled door and internal access to the property. With a little TLC this property oozes potential and won't last long on the market.
