\$1,200,000

The centrepiece of this home is its east-facing alfresco, which includes a house-length timber deck & woodfire pizza oven set against a towering garden wall. Inside, multiple living zones provide a comfortable counterpoint to outside entertaining spaces - all served by a brilliantly functional homemaker kitchen equipped with quality stainless-steel appliances, high-volume storage, and large central island. The ground floor master bedroom with WIR and ensuite feels a world away from the children's rooms on the first floor. Above, three bedrooms - two with BIR, one with WIR - share a family bathroom. Quality additions include a ground floor powder room, double garage with internal access, full-sized laundry/scullery, garden shed, plantation shutters, ducted heating, and family room A/C. This central pocket places Parkhill Primary, Ashwood High, the 75-tram, and Gardiners Creek with steps of the door. Taking advantage of Burwood's blue-chip amenities, both Burwood Once SC & Burwood Brickworks are only moments away.
