\$955,000

The centrepiece of this thoughtfully designed and beautifully curated family home is its first-floor parents' retreat, which encompasses multiple built-in robes, dual skylights, double vanity, shower, and spa. Life unfolds across the open-concept spaces of the ground floor below. Stunning architectural elements include the use of sunken ceilings to frame the bay-windowed dining zone, and playful geometric forms granting a unique character to every space. Intersected by beautiful french doors, the living zone seamlessly transitions onto a private, low-maintenance courtyard favourably oriented for full-day sun. Completing the ground floor are two large bedrooms with BIR, a family bathroom, and laundry. Noteworthy features include hardwood timber flooring, central heating & cooling, living room pot-belly heater & A/C, alarm system, instant hot-water, solar panels, attic storage, and the benefit of a lock-up garage and carport. Irresistibly convenient, live within walking distance of Huntingdale station & Monash University Clayton, while Monash Medical, Oakleigh Mall, M-City, and Chadstone SC are just moments away.
