Downsizing? Investing? Looking for a sea change? This solid two-bedroom unit comes with all the creature comforts, and it's close to the beach! Built to last and designed with comfort in mind, this is stress-free coastal living at its finest. Let's take a look around. Sitting in a sought-after complex of units that all enjoy a quaint exposed brick façade and a tiled roof, number 2 has a good feel about it. The well-kept front garden bed, the tiled driveway leading to the garage, the picturesque front security door - this is a home that's been much loved over the years! Inside, the welcoming ambience continues with warm wooden floors and an abundance of natural light. The air-conditioned living and dining sits astride the well-equipped kitchen in open-plan fashion, making for seamless entertaining and socialising. Ample cabinetry, plenty of bench space and a range of modern appliances will ably support any culinary adventures! There are two generous bedrooms, the larger one coming with a built-in robe. Both have ceiling fans and the timber flooring found throughout the home. Together with the rest of the apartment, they're serviced by a main bathroom with separate bath and shower, vanity and toilet. There's also an internal laundry, with direct access to the outdoors. This is a popular pocket of Tuncurry, where shops and amenities are nearby and both Tuncurry and Forster Beach are within easy reach. Manning Street, with its array of restaurants, takeaways and cafes, is within walking distance too. This is prime real estate, and we'd love to answer your questions on it. Get in touch with the JKL team today!
