Enjoying larger than average proportions, this retro 70s two bedroom brick villa uncovers a north facing garden courtyard that defines bliss. Highlighted by natural stone pavers and lush leafiness, where you can catch the sunshine or hide in the shade, this older style unit is well maintained with space to splash your renovating prowess. Featuring a wide entry foyer, a sliding glass door to the substantial living and dining area, a vintage north facing kitchen with meals area, two good size bedrooms with built in robes, a colourful bathroom, powder room and a big laundry space. Enhanced with the qualities of new carpets, there's also air conditioning, security doors and a garage that make it even more desirable. Set back in this quiet group of three, metres to the 624 Chadstone bus, walk to Waverley Road cafes and trams, Ardrie Park, Serrell Street Kindergarten and across to Koornang Road and Carnegie station, while moments to Monash University Caulfield and the Monash Freeway.
