"This two-bedroom apartment is something incredibly different for the area yet so essentially Newtown," says selling agent and local resident Charles Bailey. "From the vibrant retro facade to the industrial-themed interiors and private courtyard with striking graffiti mural, it has a real sense of style and glamour." One of only four in a 1970s brick block transformed by architect David Boyle, the apartment offers stylish living with adventurous design elements and bold contemporary colour yet retains the integrity of the original building and blends respectfully into the character of the historic streetscape to create a truly unique living environment. -Aust Institute of Architects NSW multi-award winning redevelopment-Direct private level entry from the street and rear access to parking-Approx. 153sqm on title (incl. car space) and with no common walls-Floor to ceiling windows and courtyard capturing brilliant natural light-Open living, dining and stainless-steel kitchen with Bosch appliances-Spacious courtyard plus essentially exclusive-use east garden area-Two good sized bedrooms with built-ins, main bedroom has ensuite-Close to Camperdown Park, 10min walk King Street and Enmore Road
