\$280,000

This renovated townhouse is located within 100 metres of the water's edge with views of the ocean from the upstairs balcony. The great attraction here is that you are in a quiet complex of only four townhouses and each one has its very own fully fenced rear yard. This yard is big enough that you could add a set of gates and park a boat or caravan beside the building. This townhouse has a large open plan with a separate dining area that overlooks the garden through glass sliding doors. The kitchen is large for a townhouse with ample bench space and a good-sized lounge area which opens onto a good-sized patio that once again overlooks the garden. This area is cooled by a new, large, and modern air conditioner. Upstairs houses two good-sized bedrooms with built-ins and air conditioning. The main has glass sliding doors onto the large under-roof patio which is big enough for a few friends and an evening tippie. It has views of the ocean and catches the ocean breeze from up here. The master bedroom has direct access to the two-way bathroom. This is the perfect townhouse for the retired or busy professional person, where you don't have to give up your garden, you can keep your pet safely thanks to the brand new fencing and the Body Corporate fees are low. Undercover car parking. Contact Michael Skuse
