Stunning is the operative word for this property sitting on the edge of the CBD of Launceston. The recently built townhouse has just had new window furnishings installed and is now the complete picture. It's spacious with loads of natural light, an array of top off the line appliances, fixtures and fittings and will please the most fastidious of buyers. The open plan design incorporates a superb kitchen, dining area and a living area leading out to your very own private enclosed deck, ideal for that morning coffee and certainly large enough to entertain family and friends. Both bathrooms, once again, will delight in both their size and quality. But perhaps it's the position that will draw you. Extremely quiet and private, its proximity to the cafe strip of Charles Street, the medical hub centred around the Launceston Hospital and of course, the CBD. Contact Katrina or Ian for further details.
