\$159,900

A holiday in Fiji is enticing, but all you have after you come home are memories. So, why not live permanently on this tropical island? This incredible piece of paradise, a level corner block on two titles, offers untold opportunities. An ancient Gum tree offers shade, and a massive mango tree will produce plenty of fruit. Imagine planting fruit trees and picking fresh vegetables from your garden. There is plenty of room on this [1439 sq m] property for a dwelling and tropical gardens. Picture the potential on this peaceful street. With one common fence already in place, these cleared blocks are ready for your creative vision. Build your dream home on one block, and on the second, unlock your entrepreneurial potential by creating a lucrative income stream with one or even two Air BnBs. This is more than a block of land; it's a gateway to a prosperous future. These north-facing blocks are nestled in a peaceful street, just a short walk from the local school, shops, and the refreshing local swimming pool. For those with a sense of adventure, the ferry terminal is conveniently close, offering easy access to the surrounding islands. This location isn't just convenient; it's a lifestyle upgrade. Yes, we are surrounded by water, but the ferries run to interconnecting islands free of charge and to the mainland at Redland Bay every day, every week. The Sealink vehicle barge runs to a regular daily timetable to Redland Bay and Cleveland. Many residents opt to leave their vehicles on the island and join the car share on the mainland at Redland Bay. Easy peasy—it's so breezy. Don't procrastinate; this won't last long.
