Start up, downsize or invest in... we've got the style to suit your lifestyle! Showcasing a state-of-the-art renovation, this accommodating three bedroom, two bathroom single-level rear home is re-imagined for today's entertaining lifestyle with the flow from designer interiors to well-designed outdoors enhanced by dual French doors to wraparound decking, and a dual-sided fireplace to warm inside... and out in the all-weather alfresco area! Combining clever design and curated interiors with a sleek Ilve appliance kitchen extending to dining and fully-tiled bespoke bathrooms including a private ensuite with classic Calacatta marble-style detail, the home is expertly styled with limed-look wideboard floors, airy plantation shutters, and a pure-white scheme inside and out. Embrace comfort all year round with the addition of ducted heating and cooling, and sun-catching skylights lighting up the heart of the home and great storage including mirrored robes, this designer original has a smart mud-room/laundry area as the link to the double auto-garage and additional parking beyond tall gates. Located in one of Melbourne's most liveable locales, just 200m to heart of the Centre Rd shopping strip, this stylish single-level home takes lifestyle to a new level too - with parks all around, Monash Hospital and allied medical services within a walk, and popular Tucker Rd Primary School in Zone.
