This is a totally unique opportunity to secure an investment, first home or a great unit to downsize too. This is a complete package with location and aspect being perfect, it is in a 2 lot strata complex where both units are detached with their own driveway, garage, court yard and privacy. The National Park and beachside reserve as your neighbour, a cycle and walkway is available to where ever you want to go. For the investor the package is the location and the unit already has a long term tenant in place, it has 3 bedrooms, an open lounge and dining area and is generous in size. The villa is in need of a little TLC but the location will be as good as you can get.
