\$530,000 to \$580,000

PHOTO ID REQUIRED FOR INSPECTION Thanks to its spacious floorplan, excellent presentation and wonderfully convenient position, around the corner from the Watsonia Village and every lifestyle benefit it brings, this two-bedroom home brilliantly blends lifestyle and location in an attractive low-maintenance package. So close to the supermarket that it'll become your pantry, the eclectic mix of restaurants, cafes, takeaways, the RSL, station, and bus are all a short walk away...in fact, it'll be quicker to walk than drive and try and find a park! The instantly inviting interior opens to a spacious open plan living-meals. Overlooked by a kitchen finished with modern appliances, it opens through sliding doors to a private courtyard that stretches the length of the house to deliver plenty of space for relaxed outdoor living and entertainment. The thoughtful layout allows you to separate the two bedrooms (both with built-in robes) and the family bathroom from the living spaces. Ducted heating, split system unit, secure covered parking for two cars, laundry with storage and the opportunity to introduce your own value-adding contemporary updates over time, it presents a brilliant opportunity to enter the market, downsize without compromising on convenience or invest with confidence.
