Bedrooms: 3

Bathrooms: 2

Parkings: 2

Type: Townhouse

\$675,000

Sleekly expressing modern style with a splendid design that delivers definition between the living and dining zones, this double storey residence provides a carefree lifestyle in a vibrant location that's abuzz with activity. Ideal for contemporary life, the layout sees natural light drawn into the streamlined design with a large lounge room sitting at the top of the staircase and flowing through to a separate dining area where the family can come together over a meal. The adjoining kitchen is a statement of modern style with waterfall stone benches matched with Blanco appliances including a gas stove, oven and semi-integrated dishwasher, along with a breakfast bench and deep pantry. Entertaining here is easy thanks to sliding doors opening from the dining area onto a huge balcony, while the ground floor is accompanied by a discrete courtyard for those catering for pets. Across the two levels are three robed bedrooms, including a master bedroom with mirrored built-in-ropes and ensuite, further served by a family bathroom with toilet and separate Euro laundry. Adding to the appeal, the residence includes panel heating, split system heating/air conditioning, high ceilings, LED downlights plus a single lock-up carport with internal access. Resting opposite Bayswater Primary and only meters from Bayswater Secondary, Bayswater Village, buses and Bayswater Train Station, near Marie Wallace Park, Dandenong Creek Trail, Westfield Knox and EastLink Freeway.
